

PRODUCT FEATURES

- **Pulse Width Modulation (PWM) Speed Controller Motor**
- **Variable Speed Profile can be set to customer/application needs**
- **>20 KHz Switching Frequency, above human audible hearing range**
- **Input Frequency can be set to customer/application needs**
- **Low Quiescent (Sleep Mode) Current Electronics**
- **Integrated Cooling for Motor and PWM**
- **PWM has Hermetically Sealed Electronics**
- **Stall Protection Incorporated**
- **Over Voltage Protection**
- **EMI Suppression**
- **Current Limit Protection**
- **Thermally Protected Electronics**
- **Long Life Brushes in Motor**
- **-40°C to 80°C Ambient Operating Temperatures**
- **Automatic Low Voltage shutoff so Batteries will not be drained**

BLOWER MOTOR WITH PWM CONTROLLER
