

PRODUCT FEATURES

- 13.5 or 26.5 Volts Available
- 10 or 12 Inch Assembly
- -57°C to 150°C (-70°F to 300°F) Storage Temperature
- -50°C to 100°C (-58°F to 212°F) Operating Temperature
- Mechanical Shock of 50g
- Random Vibration of 5.9 grams with -46°C to 80°C Thermal Cycling
- 1,000 hrs. Salt Spray per MIL-STD-202 Method 101
- Electromagnetic Interference (EMI) to MIL-STD-461
- 5,000 to 10,000 hrs., continuous duty at 26.5 volts
- Waterproof to TACOM #12480561 for Class 2 Components
- Different Performance Options Available
- Current Production Unit for Military HMMWV

MILITARY CONDENSER FAN ASSEMBLY

Example of Airflow Performance
