

PRODUCT FEATURES

- *Motor speed inputs (PWM, LIN, CAN, Analogue)*
- *Variable Speed Profile can be set to customer/application needs*
- *Diagnostic output*
- *Input Frequency can be set to customer/application needs*
- *Low Quiescent (Sleep Mode) Current Electronics*
- *12 and 24V Systems available*
- *Hermetically Sealed Electronics*
- *Stall and partial Stall protection incorporated*
- *Over and Under Voltage Protection*
- *EMI Suppression*
- *Current Limit Protection*
- *Thermally Protected Electronics*
- *-40°C to 80°C Ambient Operating Temperatures*
- *Very small electronics packaging size*
- *200W to 350W single and dual HVAC blowers*

BRUSHLESS BLOWER MOTOR
